1. Self-reflection

    1. What is your major and why did you choose your major?

    2. Computer Science I chose my major because ever since I was younger my family members always called me to help with any of their latest purchases that was technology related so I was always told to pursue a degree that has to deal with computers and technology.

    3. Why did you choose Chaminade University to pursue your major?

    4. The main reason I chose Chaminade was because I really wanted to pursue the men's soccer team in which I was recruited to join in 2021 and have been here ever since.

    5. What are 3 strengths you learned about yourself during your time at Chaminade University and please explain each strength?

    6. 3 strengths I learned while at Chaminade would have to be for starters being a Pro At Procrastination end on end assessments that I have completed the night it was due. Secondly Public Speaking, really being able to break out of my comfort zone when it comes to speaking in front of my classmates. Lastly being mentally strong and able to complete these 3 years with a great attitude!

    7. After this semester, what is 1 thing you would like to improve on and explain your plan?

    8. I would like to improve on showing up to class consistently and putting my studies before work and overall balancing the two a bit better.

    9. What has been your biggest accomplishment so far? Note: No accomplishments will not be accepted as a response.

10. Best accomplishment so far would be just staying consistent with my work ethic even when life gets busy, being able to look back at where hard work and consistency has took me (3000) miles from my hometown and attending a sick university with great people.

2. Technology-reflection

   1. Can you share on why you are/were interested to study in this technology discipline (taking this DS 100 class or pursuing a major, minor, or certificate)?

   2. I was interested in this course because I believe it would be a great opportunity to learn more about some of the different aspects of technology that I wouldn't be able to get from other sources like I would at chaminade with Professor Chong

   3. Do you believe technology drives society or does society drives technology? Please explain your thoughts.

   4. I believe society drives technology, In addition to meeting societal needs, technology has the ability to completely change how people interact, live, and work.

   5. Is it possible to live a life or lifestyle without technology? Please explain your thoughts and provide any examples.

   6. I believe it is definitely not possible because even in previous generations there were plenty of different technologies created to attempt to solve mankind's problem/challenges.

   7. In your opinion, what is the next innovation or era in technology after this data-driven era?

8. I definitely believe the next big leap in technology will be AI soldiers because the advancements we now have on AI are just so good. In which it would be a smart move with everything going on in a global war sense.

3. Goals-reflection

1. Please share some of your educational-career goals you would like to achieve **while at** Chaminade University? Note: No educational-career goals or "I don't know" will not be accepted as a response.

2. A major goal I would like to achieve at Chaminade would be completing my bachelor's degree as well as pursuing a masters degree in education in which my passion truly lies. As I have been working as a substitute teacher for the past 2 years and really enjoy the field so combining both majors would be super ideal.

3. Before graduating, what is 1 thing you would like to be known for at Chaminade University?

4. I would honestly like to be know for being an overall well rounded student athlete that came into Chaminade as a young mind with potential and leave as a

5. mature adult who can go out and succeed.

6. Before graduating, what is 1 thing you would like to contribute to your major program (DSAV, CS, etc.) to make it better?

7. I would like to contribute by encouraging my friends and family to think about pursing a degree in CS with hopes to become greater.

8. Please share a career goal **after** you obtain your degree from Chaminade University? Note: No career goals or "I don't know" will not be accepted as a response.

9. A career goal I hope to achieve after graduating would be moving out to California and pursuing a profession in the San Francisco area as I have nothing but good experiences while I visited.

10. After obtaining your degree from Chaminade University, please share on what you believe your life will be like? After graduating I would hope my life would be better than it was when I first arrived at Chaminade, I hope to be in the field with a good job, hopefully looking to purchase some property and still somehow be involved with soccer, coaching/ opening up my own club.
